Food industry

FY2024 Result Policies

- Promoting the overall optimization of food safety information exchange.
- Continuous promotion the current business model(1st eBASE) 'FOODS eBASE'.
- Continuous promotion the de facto of the product data pooling service 'Shokuzai Ebisu' and strengthen sales promotion.
- Promotion of non-food Ebisu operation in the food retail industry.
- 2nd eBASE (BtoBtoC): Integration and deployment to the 'eShoku Ju Navi' series.

Its progress

- Sales results (Full year) : 1,140 million yen (YoY: Decreased by 0.3%)
 - Revenue slightly decreased compared to the same period last year.
- 【Sales】
- Revenue was partially recognized for a major ongoing project involving the implementation of a product information database centered around 'FOODS eBASE/PDM eBASE (eB-DAM)' for a new wine import company.
 - Revenue was partially recognized from an ongoing project to replace the production and processing product management system for an existing major convenience store chain.
 - Revenue was recognized from a major development project for a packaging design check feature for ready-to-eat meals (such as side dishes and bento boxes) at another major convenience store chain.
 - Revenue was recognized from the development of a new container recycling compliance system for a major general retail customer.
 - Revenue was recognized for the core system replacement project at an established food processing manufacturer, as well as for the management of specification document collection for private label products of a food wholesaler.
- 【Orders】
- Orders were secured for the upcoming fiscal year to implement the 'FOODS eBASE' system with multiple food manufacturers and regional cooperatives.

Daily necessities goods industry

FY2024 Result Policies

- Promote total optimization of the product information exchange environment in the Daily necessities goods industry (Drugstore industry, Home center industry, Home appliance industry, Stationery industry, Sporting goods industry, Car accessory industry, Mail order industry, etc.).
- Promote sales promotion of 'Shozai Ebisu' with a focus on the product data pool service 'Nichizatsu Ebisu'.
- Deployment of customized integrated product database development for client companies, as well as the construction of large-scale product database type websites.
- 2nd eBASE (BtoBtoC): Integration and deployment to the 'eShoku Ju Navi' series.

Its progress

- Sales results (Full year) : 1,175 million yen (YoY: Increased by 52.0%)
- Sales significantly increased compared to the same quarter of the previous year, due to the smooth progress of orders in various industries and the advance in acceptance inspections for multiple large projects.

[Sales]

- Revenue was recognized for a portion of the ongoing project for the construction of an integrated product database using the catalog production support system "eB-DBP" and the product master system "MDM eBASE," which were newly ordered by a catalog gift business operator.
- Revenue was partially recognized for the 'MDM eBASE' project, which integrates with 'Shozai Ebisu/Master Data Ebisu', from a new major home center.
- Revenue was partially recognized from a major upsell project for the construction of a simplified quotation creation site for an existing office furniture manufacturer.
- Revenue was recognized for the reconstruction of the integrated product information database for an existing major tool wholesaler.
- Revenue was recognized for the 'Middleware eBASE' integrated product database construction project from a tool and electrical material wholesaler, as well as for the construction of an integrated product database for a separate catalog gift business operator.

[Orders]

- Revenue was partially recognized from an order received for data integration support for the e-commerce site of a major existing electronics retailer customer.

Housing industry

FY2024 Result Policies

- Promotion of the de facto product data pool service 'Jutaku Ebisu'.
- Promoting the sale of 'Shozai Ebisu' mainly through 'Housing Ebisu'.
- Deployment of customized integrated product database development for building material manufacturers, component manufacturers, and others, as well as the construction of large-scale product database type websites.
- 2nd eBASE (BtoBtoC): Integration and deployment to the 'eSumai Navi'.
→ Expansion of 'eSumai Navi' for general building material purposes based on 'Jutaku Ebisu'.

Its progress

- Sales results (Full year) : 323 million yen (YoY: Decreased by 6.2%)
- Sales slightly decreased compared to the same quarter of the previous year, due to delays in receiving orders for large projects and in rolling out promotional campaigns.

【Sales】

- Revenue was recognized from a new customer, an interior manufacturer of wallpaper, curtains, and flooring materials, for the construction of an integrated product information database project.
- Revenue was partially recognized from a project to replace the product database-type web catalog site for a new major lighting fixture manufacturer.

【Orders】

- Revenue was partially recognized for an order received to construct a technical information search site for a new major air conditioning equipment manufacturer.
- An order was received for the construction of a non-residential product database-type web catalog environment for a major building materials manufacturer.

eBASE

【BtoBtoC Model】

- As a new step towards promoting store DX and improving CX in the retail format, we have released a receipt information visualization service, "eShoku Ju Visual Receipt." Makiya Corporation has provisionally decided to adopt this for its Proof of Concept (PoC).
- Some stores in the general retail sector continued the Proof of Concept (PoC) for "eShoku Catalog (electronic shelf label integration).
- In the food retail sector, the Proof of Concept (PoC) for "eShoku Ju Catalog for Stores" was also continued.
- Two new food retailers have started considering the implementation of the "eShoku Ju Catalog.
- At a major electronics retailer, a Proof of Concept (PoC) is currently underway at two flagship stores for the "eShoku Ju Catalog Multilingual Edition," targeting inbound customers.
- In the housing industry, a major house manufacturer has begun operating "eJu Navi" for tenants of rental properties.

【Patent Strategy】

- Digital Plan Board Generation System for Housing Equipment and Building Materials (JP Pat No.7403140)

eBASE-PLUS Business Report

IT Development Outsourcing Business Overview and Progress

Overview of eBASE-PLUS Business

“IT development outsourcing business” including contracted development, contracted operation, and contracted server maintenance for client companies.

◆ IT system solutions

① Software Development

Supports planning, analysis, design, construction, introduction, operation management, and maintenance.

② Infrastructure construction

Supports server and client environment construction work.

◆ Support Service

① Integrated operation management

Supports the operation of IT systems.

② Help Desk Services

Help desk from primary support to secondary support that requires technical skills.

eBASE-PLUS / Current Fiscal Measures and Progress

eBASE-PLUS Business (IT Outsourcing Business)

FY2024 Result Policies

- Maintain the existing IT development outsourcing business.
- Promoting the continuation of existing measures as a stable low-growth model.
- Continuation of new talent recruitment and development through an education system.
- Linkage with eBASE Business.
- Promote quality M&A deals.

Its progress

- Sales results (Full year) : 2,555 million yen (YoY: Increased by 4.1%)
- Profit results (Full year) : 360 million yen (YoY: Increased by 4.9%)
- Sales and profit increased compared to the year-on-year.
- We focused on acquiring projects that align with customer needs.
- In response to an increase in required work hours, we are actively promoting mid-career recruitment to secure immediately effective personnel and continuously ensuring we have the talent to meet demand.
- We continue to enhance our proprietary online education system, focusing on the training of new hires and existing employees. This concentration on skill development aims to transition towards high-skill, high-value projects.
- In response to trends of rising costs and escalating labor expenses, we have continuously conducted price negotiations with our customers.
